

NEED MEDICAL CARE AT YOUR EVENT?

The American Red Cross provides first aid services at public festivals, sporting events and concerts across the area. Our team of trained volunteers is the emergency first aid front line for thousands of people who attend or participate in these events. The team conducts temporary First Aid and Basic Life Support until EMS professionals arrive.

"When we get the opportunity to work with American Red Cross First Aid Services, we are confident that a top quality service is going to be provided to our fans."

Mike Penner,
Associate Athletic Director - OSU
